Bringing Learning to Life

The Evolution of Quality Education

West Coast University is a place where advanced simulation technology and hands-on experience bring real-world perspective to each part of our focused curriculum. So each new skill a student masters is designed to prepare them for a variety of challenges in the field.

Our experienced faculty come from a wide range of medical specialties including nurse practitioners, dental hygienists, dentists, and healthcare professionals, all with strong connections to clinical sites, and dedication to student success.

Online Programs — Career-Focused Core Curriculum

WCU offers RN to BSN, RN to MSN, and MSN programs online. We've structured our program to fit the busy lifestyles of working professionals with all coursework done online via our interactive online classroom.

In addition, students can make contacts with fellow professionals and WCU's Career Services Department is there to support you after graduation. This online format provides you the freedom to complete your coursework online with the benefits of going to an on ground campus.

Los Angeles Center for Graduate Studies

West Coast University's Center for Graduate Studies is in the heart of Los Angeles with views of Downtown LA and the historical Hollywood sign.

This modern building has been completely renovated with our students in mind and is home to our new Occupational Therapy, Physical Therapy and Pharmacy programs. We're dedicated to preparing our students to work in realistic healthcare settings, which often means different healthcare professionals working together for comprehensive, patient-centered care.
